

JUMP INTO: SUMMER LEARNING

Learning Loss over the summer is a real thing!
Use these ten strategies to help your child
continue learning & growing over the summer!

#10 Explore the Lexone Launchpad!

Accessed through your child's school device, kids have lots of resources available

#9 Where will you go this summer?

Try out this [Virtual Summer Camp Adventure](#) complete with weekly learning activities & books.

#8 Play Board Games & Card Games to promote thinking!

Check out these [Board Games](#) to practice math skills & [Card Games](#) to build fluency & problem solving!

#7 Read with your device!

Visit Discus, Pebble Go, and Raz Kids, all accessed through Launchpad, for digital books & resources!

#6 Look for math in daily tasks

Use your Math Brain: Prepare a recipe, calculate the total on your restaurant bill, estimate & measure at the grocery store, & count objects.

#5 Keep a Journal of your Summer Fun!

Practice fine motor skills & the writing process by taking time each week to write and draw about where you go, what you do, and who you see!

#4 Keep your Math Skills Sharp with DreamBox

Accessed through Launchpad, DreamBox will adapt to each student as their math skills grow.

#3 create through coding

Code and Create using Bee Bot, Scratch Jr, Scratch, Tynker, & Minecraft, all accessed through your student device.

#2 Visit the Public Library

Sign up for the Summer Reading Program with [Lexington County Public Library](#)!

#1 Read! Read! Read!

The most important thing this summer is to KEEP READING! Find a "reading spot" in your home. Read a variety of books and other print resources. Read to your child, with your child and have your child read to you. Set a Reading Goal (# of books or pages) and celebrate meeting that goal as a family! READ! READ! READ!
